

Description of Green Generations Program Fees 2014-2015

Green Generations provides holistic and practical teaching approaches to ensure children, parents, and educators are equipped with the knowledge and skills necessary to make healthy choices, understand and reach their full potential, and build happy, compassionate, and meaningful lives for themselves and their community.

We have thoughtfully designed empowering workshops for children, their families, and educators. We genuinely care about everyone who participates in our workshops and in order to ensure quality, community-building, and personalized experiences we limit each workshop size to 12 children, 15-20 parents, and 20 educators per group. Sample topics include:

Children

- Self-awareness & Self-fulfillment
- Emotional well-being & Life skills
- Nutritional Empowerment
- Environmental Stewardship
- Ethical and Compassionate Leadership
- Celebration

Parents

- Parenting with Joy
- Exercising Loving, Kind, & Healthy Authority
- Effective & Open Communication
- Growing an Eco-Friendly Urban Kitchen
- Holistic Family Health & Wellness
- Relaxation & Meditation Exercises

Educators

- Teaching Children with Joy & Compassion
- Exploring Empathy & Emotions
- Praising Children Effectively
- Nurturing a Love for Nature
- Exercising Positive, Kind, & Consistent Authority
